Office Action Summary

Art Unit: 1754

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- A) In claim 1, 'between the' is unclear in that a nanotube grows from the catalyst; it appears that 'which joins' is meant.
- B) In claim 4, it appears 'n is a positive integer' is meant.
- C) In claim 5, it is not clear how the purity is measured. The claim implies an aqueous solution, but none is present.
- D) Claim 7 is unclear how the room is related to the process. Perhaps language similar to claim 5 is meant.
- E) In claim 11, perhaps 'or' is meant.
- F) In claim 13, 'such as' is improper and unclear.
- G) Claim 15 is unclear as to further process steps. If a method of use, it will be subject to a restriction requirement. Cancellation is suggested.
